        - Unjury
        - Jay Robb

\*\* Follow this diet for week one of your diet. Take your time and drink slowly since these foods will be easier to get down than solid foods. We don't want to go too fast and overeat and cause complication to your bypass pouch. **Do not progress your diet on your own**, no matter how great you feel. Stick to only foods on this sheet for one whole week.
